Fluke Biomedical

Better products. More choices. One company.

The premiere, global organization providing test and measurement equipment and services for the healthcare industry.

We strive to be the best at delivering innovative solutions to improve the quality of global health. We serve biomedical engineers, radiation physicists, and oncologists and are continually expanding our range of solutions to a broader range of health and safety professionals. Our commitment to our customers, our products, and our future is stronger than ever. Browse through our website and see what's new.
